

MMUF / WCURF
2nd Summer Research Proposal

Please complete and return this form to the OSAP office. Your summer research plans should be developed in close consultation with your mentor. Keep in mind the requirements that you work on your project full time for ten weeks and that you maintain regular contact with your mentor. In early fall, you will be expected to submit a research report and to give a formal presentation of your work. Travel and housing arrangements should be discussed with the Coordinator of Special Academic Programs.

Name: _____

Mentor: _____

Research Topic: _____

Proposed location of research: _____

Please attach a complete summary of your proposed research. Be sure to include:

- A concise statement of the topic, purpose, and goals of your research
- A brief summary of the findings and current literature related to the topic
- A description of your research methods and how you plan to spend the ten weeks
- The setting for your research
- A plan for regular contact with your mentor

Please provide the complete address and phone number (fax, too, if you will be abroad) at which OSAP can reach you during your internship.
