Curricular map
All DALLC students are strongly encouraged to study abroad in a reputable program in a region where the target language is used. Up to four study-away course credits (including summer program credits) can be transferred to count toward the major.

DALLC administers several post-graduate scholarships for students to continue their study in Asian languages and cultures in Asia.

Majors who are placed out of the lower-level language courses can take additional core electives or approved electives to replace the language course requirement.
