

Payment Plan Calculator

This document is intended to show how to successfully use our payment plan calculator. If you have any questions or concerns setting up your payment plan please feel free to contact the office of student financial services at sfs@williams.edu or you can call us at (413)-597-4181.

Section One: Charges

This tool is meant to help families estimate their monthly payment plan.

- If you have a current bill in hand, you can simply enter the "balance due" amount into any box of the section below to populate the amount you'd like to finance.
- If your bill has not been produced or is missing a key element of charges (tuition, fees, room, meals/board), you can use this [comprehensive fee list](#) to estimate your costs for the semester/year.

Section Two: Credits

This section is meant to account for any anticipated credits/financial aid that families are expecting. These can include Williams Financial Aid, Outside Awards and Loans, and 529 payments among other things.

- If you have a current bill in hand and your financial aid/anticipated credits are complete, you do not have to enter anything in this section since your "balance due" entered above takes your credits into account.
- If your bill has not been produced or is missing a key element of credits (grants, loans, outside scholarships, etc...), you can use any box in this section below to put in SEMESTER-based awards.
